

VENDOR MANAGED INVENTORY (VMI) SOLUTIONS

At Gexpro Services, we understand that maximizing productivity is crucial for your business. Our Vendor Managed Inventory (VMI) system is designed to enhance efficiency, reduce labor costs, and streamline your inventory management process through innovative technology and tailored solutions.

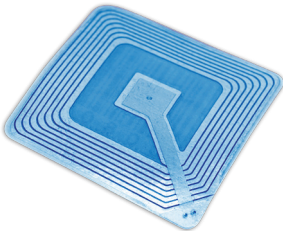

We offer several VMI solutions to suit your operational needs, with ensuring a reliable supply of essential components and materials right when you need them.

OUR VMI APPROACH:

- **Lean Continuous Improvement:** We incorporate lean principles in our VMI solutions to reduce waste and continuously improve inventory management processes.
- **Kanban Management:** Visual management tool to trigger replenishment, by ensuring smooth flow of materials, to constantly maintain optimal inventory level.
- **Supermarket Concept:** Centralized inventory management for greater visibility and quick access to materials
- **Consigned Inventory:** Maintain ownership of the inventory until you use it, minimizing costs while ensuring stock availability.
- **Point of Use Replenishment:** Materials are delivered directly to the point of use, reducing unnecessary movement and handling time.
- **Kitting for Production Floor:** Pre-packaged kits are delivered to production assembly stations just in time (JIT), reducing setup time and improving production efficiency.

DESCRIPTION	VIEW	TECHNOLOGY	BENEFITS
Real-Time Inventory Monitoring		Pro Solutions Weight Scale	<ul style="list-style-type: none"> ■ Automated reorder trigger ■ Real-time inventory status ■ Eliminate manual bin scan
Automated Inventory Monitoring		Pro Solutions TwinBin Live	<ul style="list-style-type: none"> ■ Automated reorder trigger ■ Real-time order status ■ Eliminate manual bin scan
Automated Inventory Monitoring/Dispensing		Pro Solutions RFID	<ul style="list-style-type: none"> ■ Real-time order processing ■ Part security and traceability ■ Eliminate manual bin scan
Automated Inventory Monitoring		Pro Solutions e-Label	<ul style="list-style-type: none"> ■ Real-time order status and delivery information ■ Eliminate manual bin scan ■ 5+ year battery life
Enhanced Barcode/ QR code Tools & Inventory Management		Pro Solutions Replenishment	<ul style="list-style-type: none"> ■ Reorder instantly with scan-and-tap on the production floor by using iOS (iPhone/iPad) or Android ■ Integrated: One scan logs customer, item, location, and supplier
